Quick Start Guide

Waypoints

To use the Shortcuts menu:
1. Select Shortcuts. The Shortcuts menu appears.
2. Rotate the Rock 'n Roller™ to the preferred application and press ENTER.

To mark a waypoint:
1. From the Map page, select Shortcuts. Rotate the Rock 'n Roller and select Mark Waypoint. The screen shows that the waypoint was successfully saved. A three-digit number is assigned to the new waypoint (your current location).
2. Select Done to save the waypoint. Select Edit to edit the waypoint properties. Select Cancel to delete the waypoint.

To go to a waypoint:
1. Select Shortcuts > Where To? > Waypoints.
2. Highlight the preferred waypoint and press ENTER. A green circle containing the word Go appears.
3. Press ENTER to begin navigating to the waypoint, or press Options to project or edit the waypoint.
4. To stop navigation, select Shortcuts > Stop Navigation.

System Status

To adjust the backlight level:
1. Press and quickly release the Power key. The System Status page on the Colorado appears.
2. Rotate the Rock 'n Roller clockwise or counter-clockwise to increase or decrease the backlight.
3. Select Back to close the System Status page and return to the previous page.

To access the Map page:
1. Select Shortcuts > Map.
2. Select Options to show the Data fields, change the Data fields, or hide the soft key labels.

To zoom in and out on the Map page:
1. Rotate the Rock 'n Roller clockwise to zoom in.
2. Rotate the Rock 'n Roller counter-clockwise to zoom out.

To pan across the map:
1. Press up, down, left, and right on the Rock 'n Roller to move the cursor on the map.
2. Select Done to stop panning.

Overview

Using the Rock 'n Roller™
• Rotate the Rock 'n Roller to move up and down menu lists. You can also move through the lists by pressing up, down, left, and right.
• Press ENTER to make all selections on the Colorado.
• Press up, down, left, and right on the Rock 'n Roller to pan the map.

Using Soft Keys
• The Left soft key and the Right soft key are used to access specific options that appear on the soft key labels.
• When labeled, press the soft keys to show available menus.
• If a soft key is not labeled, it is not available for that specific page.

To install batteries:
1. Remove the battery cover by lifting the latch and sliding the cover off the Colorado.
2. Insert the batteries, observing the diagram molded into the battery compartment.
3. Replace the battery cover by sliding it back onto the Colorado and fastening the latch.

To attach the carabiner clip:
1. Position the carabiner clip in the slots on the mounting spine of the Colorado.
2. Slide the clip up until it locks in place.
3. To remove the carabiner clip, lift the bottom of the clip and gently push down on the carabiner clip until it releases.

Start-up

First-time startup:
1. Press and hold the Power key until the Garmin logo appears on the screen.
2. Starting the Colorado the first time requires you to choose your language, time zone, and Daylight Saving mode.
3. When the Language page appears, highlight the preferred language and press ENTER.
4. Highlight the preferred time zone and press ENTER.
5. Highlight the preferred Daylight Saving mode and press ENTER. The Colorado then shows the Map page.
6. Take your Colorado to an area with a clear view of the sky.
7. If the cursor on the Map page is blinking, wait for the Colorado to collect satellite data and establish its current location.
8. To turn off the Colorado, press and hold the Power key.

Basic Operation

WARNING: See the Important Safety and Product Information sheet in the product box for product warnings and other important information.
