Getting Started

**WARNING**
See the *Important Safety and Product Information* guide in the product box for product warnings and other important information.

When using your device the first time, you should complete the following tasks to set up the device and get to know the basic features.

1. Install the batteries (page 2).
2. Turn on the device (page 3).
3. Acquire satellites (page 3).
4. Mark a waypoint (page 5).
5. Calibrate the compass (page 6).
6. Navigate with the search menu (page 8).
7. Navigate a route (page 8).

Getting More Information

Go to www.garmin.com to download the latest manuals.

Battery Information

The device operates on two AA batteries. Use alkaline, NiMH, or lithium batteries. Use precharged NiMH or lithium batteries for best results.

Installing the Batteries

1. Remove the battery cover by turning the D-ring 1/4 turn counterclockwise and pulling up.
2. Insert the batteries, observing polarity.
3. Replace the battery cover.
For best results, after you install new batteries, update the battery type in the system settings (page 10).

**Turning the Device On or Off**

Press and hold (power button).

**Setting Your Language**

1. Turn on the unit.
2. Use the **Rocker** to select a language.

**Acquiring Satellite Signals**

It may take 30 to 60 seconds to acquire signals.

1. Go outdoors to an open area.
2. If necessary, turn on the device.
3. Wait while the device searches for satellites.
   A question mark flashes while the device determines your location.
4. Quickly press (power button) to open the backlight status page.
   The GPS bars indicate satellite strength. When the bars are green, the device has acquired satellite signals.

Waypoints
Waypoints are locations you record and store in the device.

Creating Waypoints
1. From any page, press MARK.
2. Select Done.

Editing a Waypoint
Before you can edit a waypoint, you must create a waypoint.
1. From the main menu, select Waypoint Manager.
2. Select a waypoint.
3. Select an attribute (such as the name or location).
4. Enter the new information.
5. Select Done.

Deleting a Waypoint
1. From the main menu, select Waypoint Manager.
2. Select a waypoint.
3. Press MENU.
4. Select Delete > Yes.

Main Pages
The information needed to operate this device is found on the following pages: map, compass, main menu, and trip computer.

Map
The position icon represents your location on the map. As you travel, the position icon moves and leaves a track log (trail). Waypoint names and symbols also appear on the map.

Changing the Map Orientation
1. From the map, press MENU.
2. Select Setup Map > Orientation.
3. Select an orientation:
   • Select North Up to show north at the top of the page.
• Select **Track Up** to show your current direction of travel at the top of the page.
• Select **Automotive Mode** to show a perspective view.

**Measuring Distance**
You can move the cursor around the map to measure distance from the current location.

1. From the map, press **MENU**.
2. Select **Measure Distance**.
   The device automatically begins measuring from your current location.
3. Move the cursor to a point you want to measure to.
   The distance appears at the bottom of the page.
4. Press **QUIT** to stop measuring.

**Compass**
When navigating to a destination, the ▲ bearing pointer points to your destination, regardless of the direction you are moving. When the bearing pointer points toward the top of the electronic compass, you are traveling directly toward your destination. If it points any other direction, turn toward that direction until the arrow is pointing toward the top of the compass.

**Calibrating the Compass**

**NOTICE**
Calibrate the electronic compass outdoors. Do not stand near objects that influence magnetic fields, such as cars, buildings, or overhead power lines.

**NOTE:** The three-axis compass is available only with the GPSMAP 62s and GPSMAP 62st.

You should calibrate the compass after moving long distances, experiencing
temperature changes, or changing the batteries.

1. From the compass, press **MENU**.
2. Select **Calibrate Compass > Start**.
3. Follow the on-screen instructions.

**Calibrating the Barometric Altimeter**

**NOTE**: The elevation plot page is available only with the GPSMAP 62s and GPSMAP 62st.

You can manually calibrate the barometric altimeter if you know the correct elevation or the correct pressure.

1. From the elevation plot, press **MENU**.
2. Select **Calibrate Altimeter**.
3. Follow the on-screen instructions.

**Trip Computer**

The trip computer displays your current speed, average speed, maximum speed, trip odometer, and other helpful statistics.

**Customizing Data Fields**

You can customize the data fields displayed on each main page.

For data field descriptions, see the *GPSMAP 62 Series Owner’s Manual*.

1. From a main page, press **MENU**.
2. Select **Change Data Fields**.
3. Select a data field.
4. Press **ENTER**.

**About Tracks**

Your Garmin device records a track log while you are moving. You can save these tracks and navigate using them later.
Navigating to a Waypoint
Using the Search Menu
You can use the search menu to quickly find waypoints, tracks, routes, and coordinates that you have saved.

1. From any page, press FIND.
2. Select Waypoints.
3. Select a waypoint.
4. Select Go.

Change Your Guidance Method
You can select a guidance method that is for off-road use, that follows the roads, or that prompts you each time you begin navigating.

1. From the main menu, select Setup > Routing > Guidance Method.
2. Select an option.

Creating a Route
1. From the main menu, select Route Planner > Create Route > Select First Point.
2. Select a category.
3. Select the first point in the route.
4. Select Use.
5. Select Select Next Point.
6. Repeat steps 2–5 until the route is complete.
   A route must contain at least two points.
7. Press QUIT to save the route.

Navigating a Route
1. Press FIND.
2. Select Routes.
3. Select a route.
4. Select Go.
Using Sight ‘N Go

NOTE: Sight ‘N Go is available only with the GPSMAP 62s and GPSMAP 62st.

You can point the device at an object in the distance, such as a bridge, lock in the direction, and then navigate to the object.

1. From the main menu, select Sight ‘N Go.
2. Point the device at an object.
3. Select Lock Direction > Set Course.
4. Use the compass to navigate to the object.

Attaching the Wrist Strap

1. Place the loop of the wrist strap through the slot opening at the bottom of the device.
2. Route the strap through the loop, and pull it tight.

Attaching the Carabiner Clip

1. Position the carabiner clip in the slots on the mounting spine.
2. Slide the clip up until it locks in place.
Removing the Carabiner Clip
Lift the bottom of the clip, and gently push down on the carabiner clip until it releases.

Maximizing Battery Life

Using the Battery Save Option
Use the battery save option to save battery power and prolong battery life.

From the main menu, select **Setup** > **Display** > **Battery Save** > **On**.

Decreasing the Backlight
Extensive use of screen backlighting can significantly reduce battery life. You can adjust the backlight brightness and decrease the backlight timeout to maximize battery power.

1. Quickly press ✅️ to open the backlight status page.
2. Use the **Rocker** to adjust the brightness.

Adjusting the Backlight Timeout

1. From the main menu, select **Setup** > **Display** > **Backlight Timeout**.
2. Select a time.

Selecting the Battery Type

1. From the main menu, select **Setup** > **System** > **Battery Type**.
2. Select **Alkaline**, **Lithium**, or **Rechargeable NiMH**.

Long-Term Storage
When you do not plan to use the device for several months, remove the batteries. Stored data is not lost when batteries are removed.
Registering Your Device
Help us better support you by completing our online registration today.

- Keep the original sales receipt, or a photocopy, in a safe place.

Resetting the Device
If your device screen or buttons stop responding, you can reset the device.

1. Remove the batteries.
2. Reinstall the batteries (page 2).

NOTE: This does not erase any of your data or settings.

Updating the Software
2. Follow the on-screen instructions.

NOTE: This does not erase any of your data or settings.

Contacting Garmin Product Support
You can contact Garmin Product Support if you have any questions about this product.

- In the USA, go to www.garmin.com/support, or contact Garmin USA by phone at (913) 397.8200 or (800) 800.1020.
