

Quick Reference Guide

nüvi® 300/350

personal travel assistant

WARNING: See the *Important Safety and Product Information* guide in the product box for product warnings and other important information.

Check your state and local traffic laws before mounting. Currently, state laws in California and Minnesota prohibit drivers from using suction mounts on their windshields while operating motor vehicles. Other Garmin dashboard or friction mounting options should be used. See the *Important Safety and Product Information* guide for more details.

Mounting Your nüvi

For a tight grip, clean and dry your windshield before mounting the suction cup.

1. Plug the power cable into the back of the cradle.
 2. Snap the cradle onto the suction cup arm.
 3. Place the suction cup on the windshield.
 4. Flip the lever back, toward the windshield.
 5. Flip up the GPS antenna, and then fit the bottom of your nüvi into the cradle.
 6. Tilt the nüvi back until it snaps into place.
7. Plug the power cable into a power receptacle in your vehicle. Your unit should turn on automatically if it is plugged in and your vehicle is running.

WARNING: This product contains a lithium-ion battery. To prevent damage and risk of fire due to high temperatures, remove the unit from the vehicle or store it out of direct sunlight, such as in the glove box. For more information, see www.garmin.com/safety.

Charging Your nüvi

- Connect the nüvi to the mount and start your vehicle.
- Connect the USB cable to the nüvi and your computer.
- Connect the AC adapter to a wall outlet and the mini-USB connector on the side of the nüvi. The AC adapter is included with the nüvi 350 only.

Turning On the nüvi

Press and hold the  **Power** button on the top of the unit to turn it on. Follow the on-screen instructions to set up your nüvi; you only have to do this once. To turn your nüvi off, press and hold the  **Power** button.

Acquiring Satellites

Before the nüvi can find your current location and navigate a route, you must do the following:

1. Go outdoors to an open area, away from tall buildings and trees.
2. Flip up the GPS antenna on the back of the nüvi, so that it is parallel to the ground.
3. Turn on the nüvi.

Acquiring satellite signals can take a few minutes. The  bars indicate satellite strength.

More Information

Download the English owner's manual from www.garmin.com/products/nuvi. Click the **Manuals** link, and then click **Download**.

nüvi 350 users: You can access a PDF file of the owner's manual on the nüvi's internal memory. See [page 7](#) for more information.

Finding Your Destination
