

Getting Started

1 Insert Batteries

1. Press down on the tab and pull to remove the battery door.
2. Insert two AA batteries.
3. Press down on the battery door as you slide it back into place.

Keep batteries installed in your i5 so it can find satellites quickly.

3 Mount the i5

1. Place the suction cup mount on your windshield with the lever pulled toward you, as shown above.
2. Press the lever toward the windshield.
3. Plug one end of the vehicle adapter into the USB port on the i5. Plug the other end into a receptacle in your vehicle.

WARNING: For use in vehicles, it is the sole responsibility of the owner/operator of a vehicle with the i5 installed to place and secure the device so it will not interfere with the vehicle operating controls and safety devices, obstruct the driver's view of driving conditions, or cause personal injury in the event of an accident.

NOTICE TO STATE OF CALIFORNIA DRIVERS: California Vehicle Code Section 26708 (a) (1) provides that drivers in California should not use suction mounts on their windshield or side or rear windows. Other Garmin dashboard or friction mounting options should be used. For available accessories, refer to the Garmin Web site at www.garmin.com. Also, refer to the *Owner's Manual* for instructions on using the included mounting disk with the suction cup mount.

2 Set Up the i5

Press and hold the **Power** button  to turn on the i5. Follow the instructions on the screen to set up your i5 and acquire GPS satellite signals.

Using the buttons

Roll the **Wheel** up and down to highlight items on the screen. Press the **Wheel** in to select an item on the screen. Press  to go back to the previous page.

Acquiring satellite signals

Go outdoors away from tall buildings and trees to acquire satellite signals.

Find a Place and Go!
